## Agenda Item 1: Call to Order/ Roll Call

The open session meeting of the Board of Directors of El Camino Hospital (the “Board”) was called to order at 5:30pm by Chair Chen. A silent roll call was taken. Director Ting arrived at 5:31pm during Agenda Item 4: Quality Committee Report. All other Board members were present at roll call.

## Agenda Item 2: Potential Conflicts of Interest Disclosures

Chair Chen asked if any Board members may have a conflict of interest with any of the items on the agenda. No conflicts were reported.

## Agenda Item 4: Quality Committee Report

This item was taken out of order.

Director Kliger, Quality Committee Chair, described the new proposed dashboard that is 1) based on the STEEP (Safe, Timely, Effective, Efficient, Equitable and Patient-Centered) framework, 2) designed for quarterly Board review, and 3) is highlighting areas that fall outside of expected performance. She noted that the Quality Committee will be finalizing the metric set. The updated dashboard will be displayed by category, color-coded by performance, include peer group/competitor benchmarks, explain the significance of the data/indicator, and describe management efforts in each area.

Director Kliger recognized ECH’s achievement of a 5-star CMS rating and listing on the California Patient Safety Honor Roll.

Mark Adams, MD, CMO, provided an overview of the CMS 5-Star rating, which evaluates 57 quality measures across seven categories. He reviewed the distribution across the country and the ratings of ECH’s competitors. Dr. Adams commented that ECH’s work on mortality has contributed to this rating.

He also described the methodology for selecting representative metrics (including ambulatory, hospital-based, and enterprise measures) and overall development of the STEEP dashboard. He noted that the Quality Committee will be reviewing this revised proposed dashboard at its next meeting.

Dr. Adams updated the Board on the coronavirus, including confirmed cases (13 in the United States and two in Santa Clara County), transmissibility, infection rate versus mortality rate, pathogen comparisons (to Ebola, SARS, etc.), precautions taken in facilities where infected patients are being treated,
and general preventative measures to take during flu season.

Director Rebitzer commended the organization for the 5-Star CMS rating. In response to Director Rebitzer’s question, Dr. Adams described the improvement in 18 of the 57 measures, including improved mortality indices, readmission indices, patient safety indicators, and efficiency in CT scanning.

4. **AGENDA ITEM 5: FY20 PERIOD 6 FINANCIALS**

   Ifikhar Hussain, CFO, highlighted the following in the Period 6 Financials:
   - Though payor mix is yellow on the dashboard, the month-by-month trend has been improving; in December, the commercial mix was ahead of plan.
   - Volume is about 8% higher than budget (12% higher than FY19).
   - ECH is $5.5 million ahead of plan on operating margin

   Mr. Hussain also reviewed monthly trends, noting strong performance in December 2019 and good preliminary numbers for January 2020.

   In response to Director Watters’ question, Mr. Hussain explained that the industry standard for utilization is to measure against licensed beds; Los Gatos has a high count as the rooms are licensed for four patients, but are rarely used at full capacity. Mr. Hussain noted that if the number is adjusted for what is practically available, it is closer to 50% occupancy.
