

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

Este informe contiene información muy importante sobre su agua potable.  
Tradúzcalo o hable con alguien que lo entienda bien.

**MONITORING REQUIREMENTS NOT MET FOR EL CAMINO HOSPITAL**

Our water system failed to monitor as required for drinking water standards during the past year and, therefore, was in violation of the regulations. Even though this failure was not an emergency, as our customers, you have a right to know what you should do, what happened, and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During **June 2020**, we Failed to take sample in accordance with the approved sampling plan for lead and copper and therefore, cannot be sure of the quality of our drinking water during that time.

**What should I do?**

- There is nothing you need to do at this time.
- The table below lists the contaminant(s) we did not properly test for during the last year, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

| Contaminant     | Required Sampling Frequency | Number of Samples Taken | When All Samples Should Have Been Taken | When Samples Were or Will Be Taken |
|-----------------|-----------------------------|-------------------------|---|------------------------------------|
| Lead and Copper | Every three years           | 20                      | June to September 2020                  | June 1 to June 30, 2021            |

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

**What happened? What is being done?**

**El Camino Hospital will sample between June 1 and June 30 2021**
