

Information for Patients

Low Dose CT Scan for Lung Cancer Screening 2021

Lung cancer is the second most common cancer and the leading cause of cancer death in the U.S. The risk of getting lung cancer increases with tobacco use and increased age. You may be able to receive a free Low Dose CT Lung Scan after consulting your primary care doctor.

Eligibility and Risk Factors

- Do you live within the El Camino Healthcare District?
Verify patient address eligibility from these websites:
www.elcaminohealthcaredistrict.org/about/boundary-map OR
<https://eservices.sccgov.org/rov/?tab=dt>
- Are you uninsured or underinsured?
- Are you a current or former smoker with at least 20 “pack years”?
For former smokers, quit date should be within the past 15 years.
- Are you between 50 and 80 years of age?
- Are you not experiencing any overt signs or symptoms of lung cancer? If you are experiencing symptoms, you may not be eligible.
- Undocumented immigrants, permanent residents (green card holders), and U.S. citizens are eligible to the program.

For more information on the El Camino Health Lung Nodule Program and LDCT Scan, call the Lung Nodule Navigator at **650-940-7301** or the Cancer Center at **650-988-8338**.

Location: El Camino Health, Mountain View Hospital, 2500 Grant Road, Mountain View, CA 94040

Free Community Low Dose CT Lung Scan is sponsored by the El Camino Health Cancer Center. The lung cancer education program is provided by the ECH Cancer Center, the ECH Pulmonary Health, and the ECH Imaging Services.
